If you don't see your vision for a backyard building here, please contact us to discuss your ideas!

At MK Developers we use only quality exterior sidings designed for use on homes.

Standard and Premier sheds are built with factory primed, "SmartSide" engineered wood siding which offers the classic look of natural wood with superior durability.

Vinyl Siding offers good looks plus low maintenance. We offer many choices in color and style. OSB wall sheathing is applied before the siding as a sturdy backing.

Fiber cement and other sidings are available to compliment your home.

MK Developers

MK Developers does no painting or caulking.

MK Developers does no excavating, but will level the shed up with shim material - Up to 6". Leveling beyond 6" or use of cinder blocks will require an additional charge.

Some sheds will require a permit. It is the customer's responsibility to comply with Building, Zoning and HOA permits.

Travel charges may apply outside our delivery area.
